Our Motto...

Perfect Colourants and Plastics Pvt. Ltd., under the leadership of chairman - Mr. Madan Humad, has made an attempt to develop a comprehensive moulding chip shade card consisting of wide range of colours for an extensive variety of polymers.

This shade card is a result of more than 36 years of experience and dedication in the masterbatch industry.

This 336 colour shade card based on engineering and polyolefin polymers has been developed with the sole purpose of bringing a ready-recknor for the plastic industry. Furthermore, the wide range of colours would also find resemblance to various Pantone and RAL shades.

This shade card has been developed to cover various applications viz Toys, White Goods, Automobile, Household Products, Electrical, PP Unbreakable, General Purpose Moulding, Agriculture and various other injection moulding and blow moulding applications in PP, PE, PC, Polystyrene, Nylon, PET etc. Lastly, utmost care is taken while considering the suitable light fastness, heat stability, migration and other important technical parameters of the colour masterbatch shade depending upon the applications' requirement.

We guarantee, our efforts would help the industry to make fast, precise and economically viable decisions.

Welcome To The World of Colours !

About us

Perfect Colourants and Plastics Pvt. Ltd. (PCPPL) is one of the pioneers and leading Masterbatch Manufacturer in India, and specially know for Exporters of colour, black, white and additive masterbatches and compounds.

The company commenced operation in 1987 and has been marketing its products under the brand name CONCENTRAT. Our manufacturing units are located in Western India (Vadodara & Halol). PCPPL is catering to the world including African, Middle East & Asian markets since 1996. We proud to be elected as A Govt. Recognized Export House by the Government of India. Our all plants are certified for its Quality Management System under ISO 9001:2015 standard. The company's value proposition lies in the dedicated testing laboratory and Research and Development department & full commitment for service to its customers.

This enables PCPPL to have stringent quality check, develop tailor made customer centric colours and constantly strive to innovate products which adds value to the customer's application. PCPPL products can meet demands criteria of food packaging norms as per IS 9833, ROHS, REACH, EN71 or any other desired standard. PCPPL range covers a wide spectrum of quality products for various thermoplastics viz. PE, PP, PC, ABS, HIPS, GPPS, NYLON, PET, PBT, POM etc. The company has three modern dedicated production facilities with twin screw extruders for White, Colour & Black.
